

Toad Community Monitoring survey sheet

* Alternative to iNaturalist app → record on form, upload later *

Questions	Fill this side in! Either write or circle the correct option. Fill in every row
Your full name	
Location name (e.g. Richardson's Ranch, Tsunami Evacuation site, Chown)	
Lat/Long (available on iNaturalist)	
Date of Observation * note: new sheet to be completed each survey visit *	Day: Month: Year:
Approximate time of observation	
What did you see? If you saw a western toad, always just put western toad, even if you saw other amphibians. If you're at a toad breeding site and you didn't see any amphibians, select a tree or other species that you saw, so we still get the "no toad" data on iNaturalist.	
Is this observation at a toad breeding site? Within 50m	Yes No Unsure
Number single adult toads (not in breeding pair). If none put "0"	#
Number breeding pairs of toads. Two toads on top of each other = 1 pair. If none put "0"	#
Toad eggs present (long strings of eggs).	Yes No red-legged frog tree frog Unsure
Area of toad eggs. Approximate area of the pond that eggs occupy (in m ²)	#
Toad tadpoles present. Little black, pointy head. See ID sheet online	Yes No red-legged frog tree frog Unsure
Number of toad tadpoles. Approx # of tadpoles	10s 100s 1000s
Number of dead toads or skins.	#

Additional comments (e.g. other species seen, racoon footprints etc):

.....

VERY IMPORTANT: Put the information in this survey sheet into the iNaturalist project: "Haida Gwaii Toad Community Monitoring" - along with any photos you took. For instructions: www.haidagwaitoads.weebly.com/get-involved or ask a friend to help! Questions? Email haidagwaitoads@gmail.com Haawa/Haw'aa!

Table with known toad breeding sites outside of Gwaii Haanas that could be monitored by citizens! These coordinates are also on www.haidagwaiitoads.weebly.com Also, let's find more toad breeding sites! There are more out there, we just don't know where they are yet. Toads are called Hlk'yáan K'ust'áan in the in the Xaad Kíl dialect of the Haida language (source: Xaad Kíl Née).

Unofficial site name	Location	Latitude	Longitude	Surveyed by RGG
Chown Slough	Private property. Off of Tow Hill Road, Graham Island, Haida Gwaii	54.02273	-131.99868	2018
Collison Point Lake	Near St'álaa Kún, Graham Island, Haida Gwaii	53.827371	-132.405762	2018
Tsunami Evacuation Pond	20min south of Masset, Graham Island, Haida Gwaii	53.922716	-132.100963	2018 & 2019
